COMPANY PROFILE

IoT Gateway Card

- Enables instant Cloud Connectivity
- Neoway N58 4G Controller
- Renesas 32-bit microcontroller for better computation
- Input Power – 12V
- Power Protection enabled
- Optimized current consumption
- ESIM enabled
- Manual SIM option
- ADCs x 3
- GPIOs x 12
- CAN Channel x 1
- UART x 2
- MODBUS x 1
- Can be used for wide range of applications
